IMMUNOLOGY

CONTENTS

Vol 92, No 1, September 1997

Rapid communications

1 **S. B. A. Cohen, J. B. Crawley, M. C. Kahan, M. Feldmann & B. M. J. Foxwell:** Interleukin-10 rescues T cells from apoptotic cell death: association with an upregulation of Bcl-2

6 **X. Zhu, N. Venkataprasad, J. Ivanyi & H. M. Vordermeier:** Vaccination with recombinant vaccinia viruses protects mice against *Mycobacterium tuberculosis* infection

10 **D. C. Tsitoura, C. M. Gelder, D. M. Kemeny & J. R. Lamb:** Regulation of cytokine production by human Th0 cells following stimulation with peptide analogues: differential expression of TGF-β in activation and anergy

20 **R. M. Gorczynski, B. Cinader, V. Ramakrishna, E. Terzioglu, Th. Waelli & O. Westphal:** An antibody specific for interleukin-6 reverses age-associated changes in spontaneous and induced cytokine production in mice

26 **A. A. El-Ghorr & M. Norval:** The role of interleukin-4 in ultraviolet B light-induced immunosuppression

33 **H. Yamada, Y.-Y. Kong, K. Kishihara, T. W. Mak & K. Nomoto:** $p56^{lck}$ is not essential for the T-cell response to allo-MHC antigens

39 **K. Yamashita, C. R. Parish, H. S. Warren & L. C. Harrison:** A multimeric form of soluble recombinant sheep LFA-3(CD58) inhibits human T-cell proliferation

45 **H. Yang & R. M. E. Parkhouse:** Differential expression of CD8 epitopes amongst porcine CD8-positive functional lymphocyte subsets

53 **C. Monso-Hinard, J. N. Lou, C. Behr, P. Juillard & G. E. Grau:** Expression of major histocompatibility complex antigens on mouse brain microvascular endothelial cells in relation to susceptibility to cerebral malaria

60 **M. Kjerrulf, D. Grdic, L. Ekman, K. Schön, M. Vajdy & N. Y. Lycke:** Interferon-γ receptor-deficient mice exhibit impaired gut mucosal immune responses but intact oral tolerance

69 **E. J. Israel, S. Taylor, Z. Wu, E. Mizoguchi, R. S. Blumberg, A. Bhan & N. E. Simister:** Expression of the neonatal Fc receptor, FcRn, on human intestinal epithelial cells

75 **Y. Ohta, M. Yamane, T. Sohda & H. Makino:** TAK-603 selectively suppresses Th1-type cytokine production and inhibits the progression of adjuvant arthritis

84 **A. Wakabayashi, Y. Eishi & K. Nakamura:** Regulation of experimental autoimmune orchitis by the presence or absence of testicular antigens during immunological development in SCID mice reconstituted with fetal liver cells

91 **K. J. Scarff, J. M. Pettitt, I. R. Van Driel, P. A. Gleeson & B.-H. Toh:** Immunization with gastric H^+/K^+-ATPase induces a reversible autoimmune gastritis

99 **M. Di Renzo, P. Rubegni, G. De Aloe, L. Paulesu, A. L. Pasqui, L. Andreassi, A. Auteri & M. Fimiani:** Extracorporeal photochemotherapy restores Th1/Th2 imbalance in patients with early stage cutaneous T-cell lymphoma

104 **K. H. Lee, M. S. Yoon & W. H. Chun:** The effects of monoclonal antibodies against iC3b receptors in mice with experimentally induced disseminated candidiasis

111 **S. Toda, N. Ishii, E. Okada, K-I. Kusakabe, H. Arai, K. Hamajima, I. Gorai, K. Nishioka & K. Okuda:** HIV-1-specific cell-mediated immune responses induced by DNA vaccination were enhanced by mannan-coated liposomes and inhibited by anti-interferon-γ antibody

118 **H. Sano, M. Hirai, H. Saito, I. Nakashima & K.-I. Isobe:** A nitric oxide-releasing reagent, S-nitroso-N-acetylpenicillamine, enhances the expression of superoxide dismutases mRNA in murine macrophage cell line RAW264-7

123 **J. J. Caulfield, C. M. Hawrylowicz, D. M. Kemeny & T. H. Lee:** GM-CSF increases the ability of cultured macrophages to support autologous $CD4^+$ T-cell proliferation in response to *Dermatophagoides pteronyssinus* and PPD antigen

131 **S. Onodera, K. Suzuki, T. Matsuno, K. Kaneda, M. Takagi & J. Nishihira:** Macrophage migration inhibitory factor induces phagocytosis of foreign particles by macrophages in autocrine and paracrine fashion

138 **J. L. Craigen, K. L. Yong, N. J. Jordan, L. P. MacCormac, J. Westwick, A. N. Akbar & J. E. Grundy:** Human cytomegalovirus infection up-regulates interleukin-8 gene expression and stimulates neutrophil transendothelial migration

146 **A. Qadri:** Identification of specific recognition molecules on murine mononuclear phagocytes and B lymphocytes for Vi capsular polysaccharide: modulation of MHC class II expression on stimulation with the polysaccharide

153 **E. Sverremark & C. Fernandez:** Immunogenicity of bacterial carbohydrates: cholera toxin modulates the immune response against dextran B512

Vol 92, No 2, October 1997

161 **N. A. Mabbott, K. L. Brown, J. Manson & M. E. Bruce:** T-lymphocyte activation and the cellular form of the prion protein

166 **P. Purasiri, A. McKechnie, S. D. Heys & O. Eremin:** Modulation *in vitro* of human natural cytotoxicity, lymphocyte proliferative response to mitogens and cytokine production by essential fatty acids

173 **G. Alkhatib, K. Murata & J. C. Roder:** Cellular distribution of a natural killer cell tumour recognition-related surface antigen in purified human lymphocytes

180 **T. Nakazawa, K. Agematsu & A. Yabuhara:** Later development of Fas ligand-mediated cytotoxicity as compared with granule-mediated cytotoxicity during the maturation of natural killer cells

188 **Y.-X. Zhao, R. Holmdahl & A. Tarkowski:** Induction of

selective anergy by toxic shock syndrome toxin-1 in $CD8^+$ T cells

194 **R. M. Syme, C. J. Wood, H. Wong & C. H. Mody:** Both $CD4^+$ and $CD8^+$ human lymphocytes are activated and proliferate in response to *Cryptococcus neoformans*

201 **S. Toyabe, T. Iiai, M. Fukuda, T. Kawamura, S. Suzuki, M. Uchiyama & T. Abo:** Identification of nicotinic acetylcholine receptors on lymphocytes in periphery as well as thymus in mice

206 **T. Kobata, K. Takasaki, H. Asahara, N. Mai Hong, K. Masuko-Hongo, T. Kato, S. Hirose, T. Shirai, N. Kayagaki, H. Yagita, K. Okumura & K. Nishioka:** Apoptosis with $FasL^+$ cell infiltration in the periphery and thymus of corrected autoimmune mice

214 **B. Brenner, S. Weinmann, H. Grassmé, F. Lang, O. Linderkamp & E. Gulbins:** L-selectin activates JNK via src-like tyrosine kinases and the small G-protein Rac

220 **M. Hayashi, N. Takenouchi, M. Asano, M. Kato, T. Tsurumachi, T. Saito & I. Moro:** The polymeric immunoglobulin receptor (secretory component) in a human intestinal epithelial cell line is up-regulated by interleukin-1

226 **J. Buza, M. Sileghem, P. Gwakisa & J. Naessens:** $CD5^+$ B lymphocytes are the main source of antibodies reactive with non-parasite antigens in *Trypanosoma congolense*-infected cattle

234 **G. A. Böhmig, P.-M. Krieger, M. D. Säemann, C. Wenhardt, E. Pohanka & G. J. Zlabinger:** *n*-Butyrate downregulates the stimulatory function of peripheral blood-derived antigen-presenting cells: a potential mechanism for modulating T-cell responses by short-chain fatty acids

244 **D. A. McCarthy, M. G. Macey, P. A. Bedford, S. C. Knight, D. C. Dumonde & K. A. Brown:** Adhesion molecules are upregulated on dendritic cells isolated from human blood

252 **O. L. C. Wijberg, M. H. M. Heemskerk, C. J. P. Boog & N. Van Rooijen:** Role of spleen macrophages in innate and acquired immune responses against mouse hepatitis virus strain A59

259 **P. Ancuta, H. Fahmi, J.-F. Pons, K. Le Blay & R. Chaby:** Involvement of the membrane form of tumour necrosis factor-α in lipopolysaccharide-induced priming of mouse peritoneal macrophages for enhanced nitric oxide response to lipopolysaccharide

267 **J.-Y. Jeong, K.-U. Kim & D.-M. Jue:** Tosylphenylalanine chloromethyl ketone inhibits TNF-α mRNA synthesis in the presence of activated NF-κB in Raw 264.7 macrophages

274 **K.-H. Sonoda, G. Matsuzaki, A. Nomura, H. Yamada, S. Hamano, T. Nakamura, A. Mukasa & K. Nomoto:** Macrophages activated by *Listeria monocytogenes* induce organ-specific autoimmunity

284 **G. Reichmann, S. Stachelhaus, R. Meisel, M.-N. Mévélec, J. F. Dubremetz, H. Dlugonska & H.-G. Fischer:** Detection of a novel 40 000 MW excretory *Toxoplasma gondii* antigen by murine Th1 clone which induces toxoplasmacidal activity when exposed to infected macrophages

290 **U. M. Walter & A. C. Issekutz:** Role of E-and P-selectin in migration of monocytes and polymorphonuclear leucocytes to cytokine and chemoattractant-induced cutaneous inflammation in the rat

300 **P. Conti, M. Reale, C. Feliciani, S. Frydas, M. Trakatellis, F. C. Placido, I. Cataldo, M. Di Gioacchino & R. C. Barbacane:** Augmentation of monocyte chemotactic protein-1 and mRNA transcript in chronic inflammatory states induced by potassium permanganate ($KMnO_4$) *in vivo*

307 **B. Steiniger, P. Barth, B. Herbst, A. Hartnell & P. R. Crocker:** The species-specific structure of microanatomical compartments in the human spleen: strongly sialoadhesin-positive macrophages occur in the perifollicular zone, but not in the marginal zone

Vol 92, No 3, November 1997

317 **E. Aceituno, S. Castañón, C. Jiménez, D. Subirá, M. de Górgolas, M. Fernández-Guerrero, F. Ortíz & R. García:** Circulating immune complexes from $HIV\text{-}1^+$ patients induces apoptosis on normal lymphocytes

321 **E. Z. Tchilian, J. J. T. Owen & E. J. Jenkinson:** Anti-α4 integrin antibody induces apoptosis in murine thymocytes and staphylococcal enterotoxin B-activated lymph node T cells

328 **D. A. W. Wolvers, M. J. F. van der Cammen & G. Kraal:** Mucosal tolerance is associated with, but independent of, up-regulation of Th2 responses

334 **R. Blackstock & C. A. Casadevall:** Presentation of cryptococcal capsular polysaccharide (GXM) on activated antigen-presenting cells inhibits the T-suppressor response and enhances delayed-type hypersensitivity and survival

340 **N. D. MacHugh, J. K. Mburu, M. J. Carol, C. R. Wyatt, J. A. Orden & W. C. Davis:** Identification of two distinct subsets of bovine γδ T cells with unique cell surface phenotype and tissue distribution

346 **B. M. Schilizzi, R. Boonstra, T. H. The & L. F. M. H. de Leij:** Effect of B-cell receptor engagement on CD40-stimulated B cells

354 **F. J. Ward, J. E. G. Knies, C. Cunningham, W. J. Harris & N. A. Staines:** Natural antibodies that react with V-region peptide epitopes of DNA-binding antibodies are made by mice with systemic lupus erythematosus as disease develops

362 **V. M. Gitlits, J. W. Sentry, M. L. S. M. Matthew, A. I. Smith & B.-H. Toh:** Autoantibodies to evolutionarily conserved epitopes of enolase in a patient with discoid lupus erythematosus

369 **M. Mousavi, H. Rabbani & L. Hammarström:** Characterization of the bovine ε gene

374 **B. E. Rich:** Autocrine expression of interleukin-7 rescues lymphoid expansion in interleukin-7-deficient mice

381 **K. Lakshmi Rao, Ch. Varalakshmi, A. Mubarak Ali & A. Khar:** Administration of anti-IL-12 antibody *in vivo* inhibits rejection of a rat histiocytoma and suppresses cytokine response in a tumour-bearing host

388 **M. Cumberbatch, R. J. Dearman & I. Kimber:** Langerhans cells require signals from both tumour necrosis factor-α and interleukin-1β for migration

396 **M. Kreutz, U. Ackermann, S. Hauschildt, S. W. Krause, D. Riedel, W. Bessler & R. Andreesen:** A comparative analysis of cytokine production and tolerance induction by bacterial lipopeptides, lipopolysaccharides and *Staphyloccocus aureus* in human monocytes

402 **V. Trajković. V. Badovinac, D. Popadić, O. Hadžić & M. M. Stojković:** Cell-specific effects of pentoxifylline on nitric oxide production and inducible nitric oxide synthase mRNA expression

407 **E. Kamio, Y. Sakamoto, T. Kimura, H. Takakuwa, M. Sakurai, J.-I. Hosokawa, K. Nakagawa, F. Yoshida & K. Tagami:** Increased natural killer resistance to cyclosporine A by continuous doses of dexamethasone in rats

Vol 92, No 4, December 1997

413 **D. Smith, H. Hänsch, G. Bancroft & S. Ehlers:** T-cell-independent granuloma formation in response to *Mycobacterium avium*: role of tumour necrosis factor-α and interferon-γ

422 **M. Johansson, M. Ward & N. Lycke:** B-cell-deficient mice develop complete immune protection against genital tract infection with *Chlamydia trachomatis*

429 **A. C. N. Moura & M. Mariano:** Lipids from *Mycobacterium leprae* cell wall suppress T-cell activation *in vivo* and *in vitro*

437 **S. Kubo, A. Hasegawa, K. Hashimoto, C. Shimizu, M. Kubo, T. Tada & T. Nakayama:** CD4 regulates the efficiency of an endogenous superantigen-induced clonal deletion of TCRVβ11$^+$ cells in the periphery

447 **L. Helgeland, P. Brandtzaeg, B. Rolstad & J. T. Vaage:** Sequential development of intraepithelial γδ and αβ T lymphocytes expressing CD8αβ in neonatal rat intestine: requirement for the thymus

457 **A. Varas, A. Vicente, E. Jiménez, L. Alonso, J. Moreno, J. J. Muñoz & A. G. Zapata:** Interleukin-7 treatment promotes the differentiation pathway of T-cell-receptor-αβ cells selectively to the CD8$^+$ cell lineage

465 **J. Hassan, E. Rainsford & D. J. Reen:** Linkage of protein kinase C-β activation and intracellular interleukin-2 accumulation in human naive CD4 T cells

472 **D. R. Meldrum, B. S. Cain, J. C. Cleveland Jr., X. Meng, A. Ayala, A. Banerjee & A. H. Harken:** Adenosine decreases post-ischaemic cardiac TNF-α production: anti-inflammatory implications for preconditioning and transplantation

478 **C. Schebesch, V. Kodelja, C. Müller, N. Hakij, S. Bisson, C. E. Orfanos & S. Goerdt:** Alternatively activated macrophages actively inhibit proliferation of peripheral blood lymphocytes and CD4$^+$ T cells *in vitro*

487 **H. Khalili, R. Deshpande & M-d. Y. Chang:** The defective antigen-presenting activity of murine fetal macrophage cell lines

494 **K. Kurose, Sk. Md. F. Akbar, K. Yamamoto & M. Onji:** Production of antibody to hepatitis B surface antigen (anti-HBs) by murine hepatitis B virus carriers: neonatal tolerance versus antigen presentation by dendritic cells

501 **M. Larsson, M. Majeed, J. D. Ernst, K.-E. Magnusson, O. Stendahl & U. Forsum:** Role of annexins in endocytosis of antigens in immature human dendritic cells

512 **M. S. Douglas, S. Ali, D. A. Rix, J.-G. Zhang & J. A. Kirby:** Endothelial production of MCP-1: modulation by heparin and consequences for mononuclear cell activation

519 **L. Faulkner, M. Patel, P. M. Brickell & D. R. Katz:** The role of the Fgr tyrosine kinase in the control of the adhesive properties of U937 monoblastoid cells and their derivatives

527 **X.-Z. Shang & A. C. Issekutz:** β_2 (CD18) and β_1 (CD29) integrin mechanisms in migration of human polymorphonuclear leucocytes and monocytes through lung fibroblast barriers: shared and distinct mechanisms

536 **M. S. Palermo, F. A. Rosa, G. F. Alonso & M. A. Isturiz:** Fcγ receptor-dependent clearance is enhanced following lipopolysaccharide *in vivo* treatment

544 **F. Hoffmeyer, K. Witte & R. E. Schmidt:** The high-affinity FcγRI on PMN: regulation of expression and signal transduction

553 **H. Vliagoftis & D. D. Metcalfe:** Characterization of adhesive interactions between mast cells and laminin isoforms: evidence of a principal role for α6 integrin

561 **S. Seki, W. Hashimoto, K. Ogasawara, M. Satoh, H. Watanabe, Y. Habu, H. Hiraide & K. Takeda:** Antimetastatic effect of NK1$^+$ T cells on experimental haematogenous tumour metastases in the liver and lung of mice

567 **C. Frohn, P. Schlenke & H. Kirchner:** The repertoire of HLA–Cw-specific NK cell receptors CD158 a/b (EB6 and GL183) in individuals with different HLA phenotypes

571 **E. Yamada, N. Ishiguro, O. Miyaishi, A. Takeuchi, I. Nakashima, H. Iwata & K. Isobe:** Differential display analysis of murine collagen-induced arthritis: cloning of the cDNA-encoding murine ATPase inhibitor

577 **A. Konieczny, J. P. Morgenstern, C. B. Bizinkauskas, C. H. Lilley, A. W. Brauer, J. F. Bond, R. C. Aalberse, B. P. Wallner & M. T. Kasaian:** The major dog allergens, *Can f* 1 and *Can f* 2, are salivary lipocalin proteins: cloning and immunological characterization of the recombinant forms

587 **Erratum**

589 Author and subject indexes for Volume 92
